MANY GOLFERS TEE UP FENCERS WORK TO FINALS

Perrin Leads Big Field in Tourney at Atlantic City.

TRAVIS UNABLE TO PLAY

Former Staten Island Champion Squeezes in First Sixteen After a Tie.

[By Telegraph to the Tribune.]
Atlantic City, April 25.—With a strong field and good weather conditions the qualifying round of the annual spring golf tournament of the Country Club of Atlantic City began this morning with nearly 150 starters. H. W. Perrin, of the Merion Cricket Club, who tied for the medal with Walter J. Travis at Lakewood last week and lost the prize with \$2 for the round. W. E. Shackelford, of Atlantic City, who won the spring tournament last year, was second, with \$1.

A. W. Tillinghast, of Shawnee, landed in a tie for the last place in the first sixteen, but won on the play-off.
While in point of numbers the field compared favorably with that of previous years, the representation from the metropolitan district was not so large as expected. At the last moment Walter J. Travis found himself unable to get here, so that E. S. Bottoms, of Fox Hills, returned the best score of the New York men, and was fortunate to get in the first sixteen. The former Staten Island champion was in a tie with four others for last place, but the Tillinghast, he earned a place.

The scores of the first sixteen follow:

The first junior championship tournament of the Metropolitan Golf Association will be held over the links of the Plainfield Country Club, on Tuesday, June 25. This is the competition that was postponed because the dates selected made it impossible for the juniors to attend. This tournament will be open to boys eighteen years or under and those coming from a distance will be entertained at the homes of the members on the night of June 24. The championship trophy will consist of eighteen holes of medal play, but prizes have been offered for other contests, including a handicap.

One-day tournaments under the direction of the Women's Metropolitan Golf Association will begin on May 8 at the Morris Country Golf Club. In these affairs, gross entry prizes will be offered in the form of handicaps, and, as a general thing, approaching and putting will supplement the medal play. Miss Louise F. Krug, secretary of the association, has listed seven of these tournaments. The others are as follows:

May 15, Englewood Country Club; May 23, Plainfield Country Club; May 28, Baltuskill Golf Club; May 30, Morris Country Club; June 1, Richmond Country Club.

The first annual invitation tournament under the auspices of the Dunwoody Country Club will be held on July 18 and 23. No programme is at hand, but it is understood that the conditions will be similar to the average, calling for a qualifying round, contestants to classify themselves in four sixties.

HURLEY WINS BY A SHADE

Has Slight Advantage Over Loughery in Furious Bout.

"Battling" Hurley had a slight shade, the better of Frank Loughery, of Philadelphia, in ten furious rounds of boxing at the National Sporting Club of America last night. It was a slug-fest match from start to finish, with little show of clever boxing. At all times the boys stood toe to toe and fought with both hands, and at the end there was little to choose between them.

Loughery was more clever, but his skill was not sufficient to overcome the bulldozing punches of Hurley, who drove ahead and seldom broke ground. It was the old "Passive Thunder" who walked to the center of the ring when the gong changed, and he waded into his man, hooking with both hands to the body.

Hurley tried badly in the third and fourth rounds, and for the time being it appeared as if he would not last the limit. Loughery shifted his attack to a left hand hook and landed it on the jaw repeatedly.

Throughout the closing rounds, however, the tide of battle changed. Hurley was the aggressor and outboxed his rival in a whirlwind finish.

JACK JOHNSON WORRIED

Says Fight with Flynn May Have To Be Called Off.

Pittsburgh, April 25.—"Pretty bad," said Jack Johnson, the heavyweight champion of the world, here to-day, when he was asked how he felt after being injured when his car was struck by an auto truck yesterday afternoon. "I can't raise my right arm this morning and I am worried. I went to a physician last night and had him make a thorough examination, and I am to see him again to hear his verdict."

"I cannot say what effect these hurts are going to have on my fight with Flynn, but unless I get back to feeling right pretty soon I will seriously consider calling the thing off. I feel worse right now than I did in all my life. I am hurt, but if the doctor says it is too serious to take chances on training within the next few weeks there will be nothing to do but to call off the fight with Flynn."

CHANGE IN COLUMBIA CREW

Latenser Back in Shell After Absence for a Month.

The Columbia 'varsity crew was shifted around yesterday when Frank Latenser, who has been out of the boat for a month, resumed his old seat at No. 7. Herkert, who was removed, and Williams, Rothwell and Hadwell, the other three men rowing on the starboard side, advanced a seat each. Another change is promised in the next few days, when it is expected that P. Miller, who has been unable to row for the last ten days because of a strained ligament in his back, will take his place at No. 2.

With the newly arranged boating, the eight went through one of the hardest day's work of the year yesterday afternoon, rowing from Edgewater to a point opposite Spilten Bay, more than eight miles in all.

Slashing Bout with Foils Leave Four Survivors for Title.

SHERMAN HALL OUT OF IT

Women Will Have Their Turn for a National Championship This Evening.

Steel clashed and crashed before four fencers won their places in the final bouts of the national fencing championship tournament yesterday, at the Fencers' Club, No. 6 West 45th street. The four successful contestants with the weapon included two swordsmen of the Fencers' Club, led by Sherman Hall, who recently captured the national junior title, and A. V. Z. Post, who is rated as something of a veteran. A. E. Sauer, the Chicago fencer and winner of the Illinois division, and Dr. E. W. Allen, of the Boston Athletic Association, an expert swordsman, also qualified.

The four survivors for the championship now held by George H. Broad, of the Fencers' Club, will meet tonight in the finals of the tournament in the grand ballroom of the Hotel Astor. At that time the women fencers will make their debut in the first national championship ever decided in this country for the fair sex. Miss Adelaide Baylis, of the Illinois Fencing Club, Miss F. Dewar, of Philadelphia, N. J.; Mrs. W. H. Dewar, of Philadelphia; Miss Clara L. Cheeseman, of Garrison, N. Y.; and Miss Sailer, of Philadelphia, having qualified for the finals under the direction of the Amateur Fencers' League of America.

To the surprise of the followers of the sport, the quarter of the New York Athletic Club—Dr. E. W. Allen, Victor P. Curtiss and Philip Allison—failed to qualify a man. Sherman Hall, the junior champion, did not lose a bout until the final series, when he capitulated to Dr. F. W. Allen, of Boston. Hall's style was as puzzling as his poise was limp and seemingly awkward. He timed his thrusts perfectly, however, the point of his blade repeatedly finding the vulnerable spot in his opponent's defense.

A. E. Sauer, the Illinois swordsman, possessed a peculiar skillful thrust, but more often than not flared the blade from the grasp of his opponent. The Westerner made short work of his bout with Breckenridge in this manner, as he flitted the sword cleanly from the Washington fencer's hand four times in succession.

Three of the swordsmen who qualified in the preliminary bouts did not appear yesterday, the absentees being J. W. Knox and W. F. Grebe, both of the Illinois division, and R. L. Macneil, of the District of Columbia.

A. V. Z. Post, of the Fencers' Club; S. D. Breckenridge, of the District of Columbia; Dr. J. Ernest Gignoux, of the New York Athletic Club, and J. A. McLoughlin, of the Boston Athletic Association, qualified by the dueling swords. Altogether fourteen contestants took part in the bouts with this weapon, which were spirited and splendidly fought.

Among the sabre experts was D. D. Pallen, the former all-American football tackle of West Point, who proved agile and hardy in his bout with the strenuous weapon.

The summary follows:

HARD COAL MEN AGREE

Operators and Miners Arrange Terms of Settlement.

WAGES WILL BE ADVANCED

Report To Be Made to General Committee on May 2, and Ratification Expected.

Philadelphia, April 25.—Confirmation of the report that the anthracite coal miners and operators have reached an agreement in settlement of their dispute as to wages and hours of labor was had to-day when the office of President Baer in this city gave out the following:

George F. Baer, the chairman of the operators' committee, has issued a call for a meeting of the general committee of operators and miners' representatives in New York on Thursday, May 2, at 2 p. m., to receive and act upon the report of the sub-committee of the general committee to suggest a method of settling differences. The sub-committee having unanimously submitted a recommendation of terms and conditions looking to an adjustment of all differences.

The terms and conditions of this report, however, will not be made public until after the meeting of the general committee on May 2.

The report that an agreement had been reached and that it includes a 10 per cent increase in wages was received with satisfaction in all parts of the anthracite regions, although the miners asked a 20 per cent increase.

If the full committee of ten operators and ten miners approves it the proposed agreement will have to be ratified by the miners before it can be put into effect. This probably will be done at a convention of delegates from the three anthracite districts.

The board of conciliation created by the Anthracite Coal Strike Commission after the strike of 1902, with some modifications, is composed of the miners asked for a "more convenient and uniform system of adjusting local grievances."

The sliding scale, by which the men obtained an increase of 1 per cent when the price of coal was advanced five cents a ton above the \$10 basis at tide-water, is abolished.

A four-year agreement is reported. The miners asked for a one-year arrangement. Nothing has yet been made public regarding the demand for a reduction of hours, recognition of the union or the minor demands.

The sub-committee has been meeting almost daily since April 11. It is expected that if the agreement is ratified by the miners the 10,000 men who have been idle since April 1 will have returned to work by May 10. It is possible that the executive committee of the anthracite districts, headed by John White, national president, may order the workers back at an earlier date and trust to the convention to indorse its course.

Indianapolis, April 25.—Representatives of soft coal mine owners of Ohio, Western Pennsylvania, Illinois and Indiana and of the United Mine Workers of those states signed to-day the wage agreement ratified by the recent referendum vote of the miners. The agreement will be the basis of contracts to be entered into for the next two years by the bituminous miners and operators of many states. It grants a wage increase of five cents a ton.

It is understood that under the agreement reached in this city the anthracite mine workers will receive a 10 per cent increase in wages, and that the sliding scale is to be abolished in view of this increase.

Under the sliding scale the miners netted \$28,000,000 in nine years over their regular wages, or more than \$2,000,000 a year. As the advance in wages of 10 per cent will mean an increase of \$6,000,000 yearly to the 170,000 mine workers involved they will be getting nearly double the increase they would have received in a year under the sliding scale. Those who were getting \$150 a day will receive under the new agreement \$165 a day and those who were receiving \$2 will get \$2.20.

The new agreement, it is said, does not allow of the closed shop, but provides that any miner can sign an agreement as members of the union and not merely as representatives of the employees. A union committee is to be appointed with power to deal with the checkweighing bosses as to complaints. THE MARYLAND SEAWORTHY

Cruiser Hit by Torpedo Repaired To Continue Practice.

[From The Tribune Bureau.]
Washington, April 25.—Investigation is being made of the accident to the Maryland, which was struck by a torpedo Tuesday night, but it was officially announced at the Navy Department to-day that no court martial will result. The information now at hand clearly indicates that no one can be held blame-worthy.

Reports received by the department were that the vessel was struck eleven feet below the water line, making a hole nine inches in diameter. Temporary repairs were made to-day and the vessel will remain with the flotilla.
